NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(032) JEFFERSON COUNTY, P. I. NO. 222170-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 81 of Jefferson County.

The approved concept for PI# 222170- in Jefferson County is proposed to widen and reconstruct US 1/ SR 4 from CR 138/Mennonite Church Rd to SR88. The project would begin at CR138/Mennonite Church Rd and would proceed north with widening on the east side consisting of 4 lanes with a 44 ft. median. East side widening would continue north approximately 800 ft., then proceed on new location west of existing US1/SR4. The alignment would intersect CR126/Lake Williams Rd. approximately 700 ft. west of existing US1/SR4 and return to east side widening on the existing roadway just north of CR127/Nelson Rd. East side widening would continue to just north of Big Creek, shift to west side widening, and continue north, to just south of CR329/Campground Rd. The existing bridge at Big Creek will be replaced with a 38 ft wide bridge and a parallel 38 ft bridge will be constructed. Widening would then shift to the east side and proceed north to approximately 0.2 miles south of the southern intersection of CR129/Hoyt Braswell Rd. Continuing north, the proposed median would taper to minimize displacements and east side widening would continue to approximately 0.3 miles north of the southern intersection of CR129/Hoyt Braswell Rd. At this point, the typical section would be 4 lanes with a 14-ft. flush median and widening would transition to symmetrical widening. Symmetrical widening would continue north to the project's end at SR88 in Wrens. Existing right-of-way along US1/SR4 varies from 139 ft. to 140 ft. The proposed right-of-way would vary from 131 ft. to 250 ft. for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 6.5 miles.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, GA 30434 478-625-3681

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(031) JEFFERSON COUNTY, P. I. NO. 222160-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 78 of Jefferson County.

The approved concept for PI# 222160- in Jefferson County is proposed to widen and reconstruct US 1/ SR 4 from CR 325/Clarks Mill Road to CR138/Mennonite Church Road in Jefferson County. From the beginning terminus at CR325/Clarks Mill Road, just north of Louisville, improvements would proceed northward along US 1/ SR 4 as symmetrical widening consisting of a 4 lane, 14-foot flush median with a 12 ft. urban typical section to 1.2 miles north of CR 325/Clarks Mill Bypass. The urban shoulder will have a 5 ft. sidewalk for the first 100 ft. of the project. The alignment would then taper out to a 4 lane rural typical section with a 44-foot grassed median, with new location construction to the east side for approximately 0.5 miles to avoid an eligible historic resource on the west side, then shift to west side widening approximately 800 feet north of CR 142/Bridges Road to avoid impacting a cemetery and church located on the east side of the alignment. West side widening would continue for approximately 2200 feet, then shift to east side widening just south of SR 296/Harvey Street to avoid impacts to a Memorial Gardens and cemetery on the west side of the alignment. East side widening would continue to just south of CR 136/Mae Lamb Farm Road, where the alignment would shift to west side widening to avoid impacting a 3rd eligible historic resource, and continue to just north of CR 397/Butts Road. The alignment would then shift back to east side widening for the remainder of the project, ending at CR 138/Mennonite Church Road. Existing right-of-way along US 1/ SR 4 is 130 feet. The proposed right-of-way would vary from 130 feet to 250 feet for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 5.9 miles.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, GA 30434 478-625-3681

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to: Albert V. Shelby III Office of Program Delivery Attn: Daniel Chastain dchastain@dot.ga.gov 600 West Peachtree St. N.W. 25th Floor 706-604-6594

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(030) JEFFERSON COUNTY, P. I. NO. 222150-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 82 of Jefferson County.

The proposed construction of project PI# 222150- Jefferson is the widening and reconstruction of the Louisville Bypass (US 1/ SR 4 & 17) from 0.3 miles north of CR 326/ Nimrod Rd to approximately Clark Mills Road for a total of 2.85 miles. The existing roadway varies from two to four lanes with rural shoulders. The proposed construction will provide two 11' lanes in each direction separated by a 14' flush median and curb and gutter for the entire project length. The additional lanes and median will be constructed symmetrically about the existing roadway making as much use of the existing pavement as possible. The southern and northern termini of this project tie to projects 222120- and 222160-, respectively, in Jefferson County. Traffic will be maintained utilizing stage construction.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, GA 30434 478-625-3681

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(029) JEFFERSON COUNTY, P. I. NO. 222120-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 83 of Jefferson County.

The proposed construction of project PI# 222120- in Jefferson County would provide four, 12ft lanes with a 44ft depressed grassed median from the beginning of the project to CR 248. The typical section just north of the Ogeechee overflow bridge will transition from a 32' depressed median to a 14' flush median and continue to the northern terminus 1600' south of US 1/ SR 4 Bus. The north project terminus is 0.3 miles north of CR 326/ Nimrod Rd. From there, the median would taper to 14ft, continuing to the end of the project at the Louisville Bypass. The existing bridges over Ogeechee River and the Ogeechee River Overflow would be widened to 38ft and parallel 38ft wide bridges would be constructed to accommodate the new lanes. The existing culvert over Boggy Gut Creek would be extended to accommodate the US 1/ SR 4 widening. The northern terminus of this project ties into project 222150- Jefferson County, with a similar typical section. Traffic would be maintained throughout construction.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, GA 30434 478-625-3681

NOTICE OF SALE UNDER POWER IN SECURITY DEED STATE OF GEORGIA COUNTY OF JEFFERSON

On November 8, 2013, Jeff Walden a/k/a Jeffery L. Walden executed a Security Deed to FIRST-CITIZENS BANK & TRUST COMPANY, successor by merger to First Citizens Bank and Trust Company, Inc., securing a note of even date for Eighty Two Thousand One Hundred Fifty Eight and 10/100 Dollars (\$82,158.10), said Security Deed being recorded in Deed Book 518, Pages 572-579, Jefferson County Records. Said Security Deed conveyed the property hereinafter described.

By virtue of the power of sale contained in said Security Deed to FIRST-CITIZENS BANK & TRUST COMPANY, there was sold by the undersigned at public outcry to the highest bidder for cash, before the Jefferson County Courthouse door in Louisville, Georgia, during the legal hours of sale, being 10 a.m. until 4 p.m. Eastern Time, on the first Tuesday in May, the same being May 3, 2016, the following described property:

ALL that parcel or tract of land, together with all improvements thereon, situate, lying and being in the 81st G.M.D. of Jefferson County, Georgia, consisting of 78.0 acres, more or less and being bounded now or formerly as follows: On the North by the run of Hadden's Branch and the Wrens-Zebina Public Road (County Road No. 332); on the West by the run of Hadden's Branch and other lands of Jeffery L. Walden; on the East by the Wrens-Zebina Public Road (County Road No. 332) and on the South and Southwest by the run of Brushy Creek and other lands of Wright Perdue and other lands of Jeffery L. Walker. This is the same property as that conveyed by Deed dated January 16, 1957 from Jewel P. Usry, Lee Roy Perdue, and P. K. Perdue, as heirs of the late Lee R. Perdue, and Jewel P. Usry and recorded in the Office of the Clerk of Superior Court of Jefferson County, Georgia, Deed Book 3U, at pages 541-542. Reference is made to said deed and its place of record as if fully incorporated herein for further description of said property. Said property is identified as the "Lee Perdue Place".

Said property is conveyed subject to any and all easements and restrictions of record. Said property is subject to Agricultural Assessment recorded April 12, 2012 in Deed Book 495 at pages 290-291, Jefferson County Clerk of Superior Court's Office.

The above description has been corrected to reflect the correct date of the prior deed reference as January 16, 1957, not January 16, 1057. The debt secured by said Security Deed and note has been and is hereby declared due and payable because of default for non payment as required by the note and Security Deed. The debt having been declared due and payable and remaining unpaid, and the terms in the note and Security Deed remaining in default, this sale will be made for the purpose of paying the principal, accrued interest and attorney's fees pursuant to the note and Security Deed, plus all

expenses of this sale. Said property will be sold as the property of Jeff Walden a/k/a Jeffery L. Walden subject to outstanding ad valorem taxes and/or easements and/or restrictive covenants appearing of record, if any. The undersigned will comply with Georgia Law, O.C.G.A. Section 44-14-162.2, prior to conducting the sale.

To the best knowledge and belief of the undersigned, equitable title to said property is now held by Jeff Walden a/k/a Jeffery L. Walden.

The entity with full authority to negotiate, amend and modify all terms of the mortgage with the Debtor is First-Citizens Bank & Trust Company, 100 E Tryon Road, Raleigh, NC 27603 and its phone number is (919) 716-8057. The undersigned will execute a deed to the purchaser at said sale as provided in the aforementioned Security Deed to FIRST-CITIZENS BANK & TRUST COMPANY.

Dated this 24th day of March, 2016.

Sealed proposals will be received by CITY OF LOUISVILLE, GEORGIA at City Hall, 1011 Peachtree Street, Louisville, Georgia 30434 (only shipping packages are received at street address) until 3:00 P.M. local time, TUESDAY, MAY 31, 2016 at which time and place they will be publicly opened and read. No submitted bid may be withdrawn after the scheduled closing time for receipt of bids for a period of sixty (60) days.

All Bidders must have a State of Georgia Utility Contractors License and must employ a state "Utility Manager" certificate holder who will have oversight of all the work.

Work to be done: The work to be done consists of furnishing all materials, equipment and labor for the construction of:

Rehabilitation of 2,623 L.F. of 8-inch PVC SDR 26 by dig-and-replace, including 30 existing manholes, 63 service connections, 771 tons of Asphalt Overlay, by-pass pumping, and appurtenances.

Time allotted for construction is 180 consecutive calendar days.

Proposals for the complete work in one general contract will be made on the proposal form provided and shall contain prices in words and figures for the work bid on.

This project is funded by a Community Development Block Grant. The work to be performed under this contract is on a project assisted under program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968 as amended, 12 U.S.C. 1701 U. Section 3 requires that to the greatest extent feasible opportunities for employment and training be given to the low income residents of the project area, and contracts for work in connection with the project to be awarded to business concerns which are located in, or owned in substantial part by persons residing in the area of the project. Section 3 Residents and Business Concerns are encouraged to apply.

A PRE-BID MEETING will be held on TUESDAY MAY 17TH, at 3:00 P.M. in which Section 3 preference and compliance will be discussed. Bidders are encouraged to attend, but attendance is not mandatory in order to submit a bid.

All proposals shall be accompanied by a Bid Bond drawn in favor of CITY OF LOUISVILLE, GEORGIA, in the amount of at least ten percent (10%) of the lump sum bid for the complete work; such Bid Bond representing that the Bidder, if awarded the contract, will promptly enter into a contract and furnish Performance Bond and Payment Bond as provided by law and approved by the Attorney for CITY OF LOUISVILLE, GEORGIA. Each bond shall be equal to one hundred percent (100%) of the contract amount. The Bid Bond shall be forfeited to CITY OF LOUISVILLE, GEORGIA as liquidated damages if the Bidder fails to execute the contract and provide Performance and Payment Bonds within ten (10) days after being notified that he has been awarded the contract.

Drawings and Specifications are open to public inspection at the office of the CITY OF LOUISVILLE, at the office of G. Ben Turnipseed Engineers, Inc., in Augusta and Atlanta, Georgia and the AGC Builders Exchange in Smyrna, Georgia.

Copies of the plans and specifications may be obtained from G. Ben Turnipseed Engineers, Inc., 4210 Columbia Road, Building 3, Augusta, Georgia 30907, upon receipt of the following amounts:

Specifications \$125.00
Plans \$125.00
Reduced Drawings Available (Extra Set) \$125.00

Upon receipt of all documents in undamaged condition within thirty (30) days after the date of opening of bids, one half of the deposit will be refunded.

The difference between the deposit and the amount refunded represents the cost of reproduction. No refund will be made for documents received after thirty (30) days or in damaged condition.

The Owner reserves the right to reject any or all bids and to waive informalities.

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(032) JEFFERSON COUNTY P. I. NO. 222170-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 81 of Jefferson County.

The approved concept for PI# 222170- in Jefferson County is proposed to widen and reconstruct US 1/ SR 4 from CR 138/Mennonite Church Rd to SR88. The project would begin at CR138/Mennonite Church Rd and proceed north with widening on the east side consisting of 4 lanes with a 44 ft. median. East side widening would continue north approximately 800 ft., then proceed on new location west of existing US1/SR4. The alignment would intersect CR126/Lake Williams Rd. approximately 700 ft. west of existing US1/SR4 and return to east side widening on the existing roadway just north of CR127/Nelson Rd. East side widening would continue to just north of Big Creek, shift to west side widening, and continue north, to just south of CR329/Campground Rd. The existing bridge at Big Creek will be replaced with a 38 ft wide bridge and a parallel 38 ft bridge will be constructed. Widening would then shift to the east side and proceed north to approximately 0.2 miles south of the southern intersection of CR129/Hoyt Braswell Rd. Continuing north, the proposed median would taper to minimize displacements and east side widening would continue to approximately 0.3 miles north of the southern intersection of CR129/Hoyt Braswell Rd. At this point, the typical section would be 4 lanes with a 14-ft. flush median and widening would transition to symmetrical widening. Symmetrical widening would continue north to the project's end at SR88 in Wrens. Existing right-of-way along US1/SR4 varies from 139 ft. to 140 ft. The proposed right-of-way would vary from 131 ft. to 250 ft. for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 6.5 miles.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, Ga 30434 478-625-3681

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to: Albert V. Shelby III Office of Program Delivery Attn: Daniel Chastain dchastain@dot.ga.gov 600 West Peachtree St. N.W. 25th Floor 706-604-6594

Any written request or communication in reference to this project or notice SHOULD include the Project and P. I. Numbers as noted at the top of this notice.

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(030) JEFFERSON COUNTY P. I. NO. 222150-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 82 of Jefferson County.

The proposed construction of project PI# 222150- Jefferson is the widening and reconstruction of the Louisville Bypass (US 1/SR 4 & 17) from 0.3 miles north of CR 326/ Nimrod Rd to approximately Clark Mills Road for a total of 2.85 miles. The existing roadway varies from two to four lanes with rural shoulders. The proposed construction will provide two 11' lanes in each direction separated by a 14' flush median and curb and gutter for the entire project length. The additional lanes and median will be constructed symmetrically about the existing roadway making as much use of the existing pavement as possible. The southern and northern termini of this project tie to projects 222120- and 222160-, respectively, in Jefferson County. Traffic will be maintained utilizing stage construction. Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to: Albert V. Shelby III Office of Program Delivery Attn: Daniel Chastain dchastain@dot.ga.gov 600 West Peachtree St. N.W. 25th Floor 706-604-6594

NOTICE OF LOCATION AND DESIGN APPROVAL EDS00-0545-00(029) JEFFERSON COUNTY P. I. NO. 222120-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016. The project is located in GMD 83 of Jefferson County.

The proposed construction of project PI# 222120- in Jefferson County would provide four, 12ft lanes with a 44ft depressed grassed median from the beginning of the project to CR 248. The typical section just north of the Ogeechee overflow bridge will transition from a 32' depressed median to a 14' flush median and continue to the northern terminus 1600' south of US 1/ SR 4 Bus. The north project terminus is 0.3 miles north of CR 326/ Nimrod Rd. From there, the median would taper to 14ft, continuing to the end of the project at the Louisville Bypass. The existing bridges over Ogeechee River and the Ogeechee River Overflow would be widened to 38ft and parallel 38ft wide bridges would be constructed to accommodate the new lanes. The existing culvert over Boggy Gut Creek would be extended to accommodate the US 1/SR 4 widening. The northern terminus of this project ties into project 222150- Jefferson County, with a similar typical section. Traffic would be maintained throughout construction.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation: Terrell McMillan, Area Engineer tmcmillan@dot.ga.gov 2971 US Hwy 1 North Louisville, Ga 30434 478-625-3681

South and Southwest by the run of Brushy Creek and other lands of Wright Perdue and other lands of Jeffrey L. Walker. This is the same property as that conveyed by Deed dated January 16, 1957 from Jewel P. Usry, Lee Roy Perdue, and P. K. Perdue, as heirs of the late Lee R. Perdue, and Jewel P. Usry and recorded in the Office of the Clerk of Superior Court of Jefferson County, Georgia, Deed Book 3U, at pages 541-542. Reference is made to said deed and its place of record as if fully incorporated herein for further description of said property. Said property is identified as the "Lee Perdue Place".

Said property is conveyed subject to any and all easements and restrictions of record.

Said property is subject to Agricultural Assessment recorded April 12, 2012 in Deed Book 495 at pages 290-291, Jefferson County Clerk of Superior Court's Office.

The above description has been corrected to reflect the correct date of the prior deed reference as January 16, 1957, not January 16, 1957.

The debt secured by said Security Deed and note has been and is hereby declared due and payable because of default for non payment as required by the note and Security Deed. The debt having been declared due and payable and remaining unpaid, and the terms in the note and Security Deed remaining in default, this sale will be made for the purpose of paying the principal, accrued interest and attorney's fees pursuant to the note and Security Deed, plus all expenses of this sale.

Said property will be sold as the property of Jeff Walden a/k/a Jeffery L. Walden subject to outstanding ad valorem taxes and/or easements and/or restrictive covenants appearing of record, if any. The undersigned will comply with Georgia law, O.C.G.A. Section 44-14-162.2, prior to conducting the sale.

To the best knowledge and belief of the undersigned, equitable title to said property is now held by Jeff Walden a/k/a Jeffery L. Walden.

The entity with full authority to negotiate, amend and modify all terms of the mortgage with the Debtor is First-Citizens Bank & Trust Company, 100 E Tryon Road, Raleigh, NC 27603 and its phone number is (919) 716-8057. The undersigned will execute a deed to the purchaser at said sale as provided in the aforementioned Security Deed to FIRST-CITIZENS BANK & TRUST COMPANY.

Dated this 24th day of March, 2016.

NOTICE OF LOCATION AND DESIGN APPROVAL

EDS00-0545-00(032) JEFFERSON COUNTY

P. I. NO. 222170-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016

The project is located in GMD 81 of Jefferson County.

The approved concept for P1# 222170- in Jefferson County is proposed to widen and reconstruct US 1/SR 4 from CR 138/Mennonite Church Rd to SR88. The project would begin at CR138/Mennonite Church Rd and would proceed north with widening on the east side consisting of 4 lanes with a 44 ft. median. East side widening would continue north approximately 800 ft., then proceed on new location west of existing US1/SR4. The alignment would intersect CR126/Lake Williams Rd. approximately 700 ft. west of existing US1/SR4 and return to east side widening on the existing roadway just north of CR127/Nelson Rd. East side widening would continue to just north of Big Creek, shift to west side widening, and continue north, to just south of CR329/Campground Rd. The existing bridge at Big Creek will be replaced with a 38 ft wide bridge and a parallel 38 ft bridge will be constructed. Widening would then shift to the east side and proceed north to approximately 0.2 miles south of the southern intersection of CR129/Hoyt Braswell Rd. Continuing north, the proposed median would taper to minimize displacements and east side widening would continue to approximately 0.3 miles north of the southern intersection of CR129/Hoyt Braswell Rd. At this point, the typical section would be 4 lanes with a 14-ft. flush median and widening would transition to symmetrical widening. Symmetrical widening would continue north to the project's end at SR88 in Wrens. Existing right-of-way along US1/SR4 varies from 139 ft. to 140 ft. The proposed right-of-way would vary from 131 ft. to 250 ft. for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 6.5 miles.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

NOTICE OF LOCATION AND DESIGN APPROVAL

EDS00-0545-00(031) JEFFERSON COUNTY

P. I. NO. 222160-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016

The project is located in GMD 78 of Jefferson County.

The approved concept for P1# 222160- in Jefferson County is proposed to widen and reconstruct US 1/SR 4 from CR 325/Clarks Mill Road to CR138/Mennonite Church Road in Jefferson County. From the beginning terminus at CR325/Clarks Mill Road, just north of Louisville, improvements would proceed northward along US 1/SR 4 as symmetrical widening consisting of a 4 lane, 14-foot flush median with a 12 ft. urban typical section to 1.2 miles north of CR 325/Clarks Mill Bypass. The urban shoulder will have a 5 ft. sidewalk for the first 100 ft of the project. The alignment would then taper out to a 4 lane rural typical section with a 44-foot grassed median, with new location construction to the east side for approximately 0.5 miles to avoid an eligible historic resource on the west side, then shift to west side widening approximately 800 feet north of CR 142/Bridges Road to avoid impacting a cemetery and church located on the east side of the alignment. West side widening would continue for approximately 2200 feet, then shift to east side widening just south of SR 286/Harvey Street to avoid impacts to a Memorial Gardens and cemetery on the west side of the alignment. East side widening would continue to just south of CR 136/Mae Lamb Farm Road, where the alignment would shift to west side widening to avoid impacting a 3rd eligible historic resource, and continue to just north of CR 397/Butts Road. The alignment would then shift back to east side widening for the remainder of the project, ending at CR 138/Mennonite Church Road. Existing right-of-way along US 1/SR 4 is 130 feet. The proposed right-of-way would vary from 130 feet to 250 feet for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 5.9 miles.

NOTICE OF LOCATION AND DESIGN APPROVAL

EDS00-0545-00(029) JEFFERSON COUNTY

P. I. NO. 222120-

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: April 12, 2016

The project is located in GMD 83 of Jefferson County.

The proposed construction of project P1# 222120- in Jefferson County would provide four, 12ft lanes with a 44ft depressed grassed median from the beginning of the project to CR 248. The typical section just north of the Ogeechee overflow bridge will transition from a 32' depressed median to a 14' flush median and continue to the northern terminus 1600' south of US 1/SR 4 Bus. The north project terminus is 0.3 miles north of CR 326/ Nimrod Rd. From there, the median would taper to 14ft, continuing to the end of the project at the Louisville Bypass. The existing bridges over Ogeechee River and the Ogeechee River Overflow would be widened to 38ft and parallel 38ft wide bridges would be constructed to accommodate the new lanes. The existing culvert over Boggy Gut Creek would be extended to accommodate the US 1/SR 4 widening. The northern terminus of this project ties into project 222150- Jefferson County, with a similar typical section. Traffic would be maintained throughout construction.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

The approved concept for P1# 222170- in Jefferson County is proposed to widen and reconstruct US 1/ SR 4 from CR 138/Mennonite Church Rd to SR88. The project would begin at CR138/Mennonite Church Rd and would proceed north with widening on the east side consisting of 4 lanes with a 44 ft. median. East side widening would continue north approximately 800 ft., then proceed on new location west of existing US1/SR4. The alignment would intersect CR126/Lake Williams Rd. approximately 700 ft. west of existing US1/SR4 and return to east side widening on the existing roadway just north of CR127/Nelson Rd. East side widening would continue to just north of Big Creek, shift to west side widening, and continue north, to just south of CR329/Campground Rd. The existing bridge at Big Creek will be replaced with a 38 ft wide bridge and a parallel 38 ft bridge will be constructed. Widening would then shift to the east side and proceed north to approximately 0.2 miles south of the southern intersection of CR129/Hoyt Braswell Rd. Continuing north, the proposed median would taper to minimize displacements and east side widening would continue to approximately 0.3 miles north of the southern intersection of CR129/Hoyt Braswell Rd. At this point, the typical section would be 4 lanes with a 14-ft. flush median and widening would transition to symmetrical widening. Symmetrical widening would continue north to the project's end at SR88 in Wrens. Existing right-of-way along US1/SR4 varies from 139 ft. to 140 ft. The proposed right-of-way would vary from 131 ft. to 250 ft. for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 6.5 miles.

NOTICE OF LOCATION AND DESIGN APPROVAL
EDS00-0545-00(031) JEFFERSON COUNTY
P. I. NO. 222160
 Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.
 The date of location and design approval is: April 12, 2016
 The project is located in GMD 78 of Jefferson County.
 The approved concept for P1# 222160- in Jefferson County is proposed to widen and reconstruct US 1/ SR 4 from CR 325/Clarks Mill Road to CR138/Mennonite Church Road in Jefferson County. From the beginning terminus at CR325/Clarks Mill Road, just north of Louisville, improvements would proceed northward along US 1/ SR 4 as symmetrical widening consisting of a 4 lane, 14-foot flush median with a 12 ft. urban typical section to 1.2 miles north of CR 325/Clarks Mill Bypass. The urban shoulder will have a 5 ft. sidewalk for the first 100 ft. of the project. The alignment would then taper out to a 4 lane rural typical section with a 44-foot grassed median, with new location construction to the east side for approximately 0.5 miles to avoid an eligible historic resource on the west side, then shift to west side widening approximately 800 feet north of CR 142/Bridges Road to avoid impacting a cemetery and church located on the east side of the alignment. West side widening would continue for approximately 2200 feet, then shift to east side widening just south of SR 296/Harvey Street to avoid impacts to a Memorial Gardens and cemetery on the west side of the alignment. East side widening would continue to just south of CR 136/Mae Lamb Farm Road, where the alignment would shift to west side widening to avoid impacting a 3rd eligible historic resource, and continue to just north of CR 397/Butts Road. The alignment would then shift back to east side widening for the remainder of the project, ending at CR 138/Mennonite Church Road. Existing right-of-way along US 1/ SR 4 is 130 feet. The proposed right-of-way would vary from 130 feet to 250 feet for the length of the project. The speed design would vary from 45 mph to 65 mph, and access would be by permit. The project length would be approximately 5.9 miles.

P. I. NO. 222150

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.
 The date of location and design approval is: April 12, 2016
 The project is located in GMD 83 of Jefferson County.
 The proposed construction of project P1# 222150- in Jefferson County would provide four, 12ft. lanes with a 44ft depressed grassed median from the beginning of the project to CR 248. The typical section just north of the Ogeechee overflow bridge will transition from a 32' depressed median to a 14' flush median and continue to the northern terminus 1600' south of US 1/ SR 4 Bus. The north project terminus is 0.3 miles north of CR 326/ Nimrod Rd. From there, the median would taper to 14ft, continuing to the end of the project at the Louisville Bypass. The existing bridges over Ogeechee River and the Ogeechee River Overflow would be widened to 38ft and parallel 38ft wide bridges would be constructed to accommodate the new lanes. The existing culvert over Boggy Gut Creek would be extended to accommodate the US 1/ SR 4 widening. The northern terminus of this project lies into project 222150- Jefferson County, with a similar typical section. Traffic would be maintained throughout construction.

P. I. NO. 222150

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.
 The date of location and design approval is: April 12, 2016
 The project is located in GMD 82 of Jefferson County.
 The proposed construction of project P1# 222150- Jefferson is the widening and reconstruction of the Louisville Bypass (US 1/ SR 4 & 17) from 0.3 miles north of CR 326/ Nimrod Rd. to approximately Clark Mills Road for a total of 2.85 miles. The existing roadway varies from two to four lanes with rural shoulders. The proposed construction will provide two 11' lanes in each direction separated by a 14' flush median and curb and gutter for the entire project length. The additional lanes and median will be constructed symmetrically about the existing roadway making as much use of the existing pavement as possible. The southern and northern termini of this project tie to projects 222120- and 222160-, respectively, in Jefferson County. Traffic will be maintained utilizing stage construction.
